

Dr Zulfiqar A. Bhutta is Husein Laljee Dewraj Professor and the Founding Chair of the Division of Women and Child Health, Aga Khan University, Karachi, Pakistan. He also holds adjunct professorships in International Health & Family and Community Medicine at the departments of International Health at the Boston University and Tufts University (Boston) respectively. He was designated a Distinguished National Professor of the Government of Pakistan in 2007. He is also the Dean of the faculty of Paediatrics of the College of Physicians & Surgeons, Pakistan and the Chairman of the National Research Ethics Committee of the Government of Pakistan.

Professor Bhutta was educated at the University of Peshawar (MBBS) and obtained his PhD from the Karolinska Institute, Sweden. He is a Fellow of the Royal College of Physicians (Edinburgh), the Royal College of Paediatrics and Child Health (London) and the Pakistan Academy of Sciences. He has been associated with the Aga Khan University since 1986 and heads a large research team working on issues of maternal, newborn and child survival and nutrition globally and regionally. Dr Bhutta has served as a member of the Global Advisory Committee for Health Research for the World Health Organization, the Board of Child & Health and Nutrition Initiative of Global Forum for Health Research, and the steering committees of the International Zinc and Vitamin A Nutrition Consultative Groups. He is an executive committee member of the International Paediatric Association and on the Board of the Global Partnership for Maternal, Newborn and Child Health (PMNCH). He is a Foundation Council member of the Global Forum for Health Research, a council member for the International Society for Infectious diseases (ISID) and serves on the governing council for the World Alliance for Patient Safety Research. Dr Bhutta is currently the Chair of the Health Sciences Group of the Biotechnology Commission of Pakistan, a member of the WHO Strategic Advisory Committee for Vaccines (SAGE), the Quantitative Vaccine Research (QUIVER) group of WHO, the Advisory Committee for Health Research of WHO EMRO, and its apex Regional Consultative Committee. He is the immediate past-President of the Commonwealth Association of Paediatric Gastroenterology and Nutrition (CAPGAN) and the Federation of Asia-Oceania Perinatal Societies (FAOPS).

Dr. Bhutta is on several international editorial advisory boards including the Lancet, BMJ, PLoS Medicine, PLoS ONE and the Cochrane ARI group. He has published four books, 55 book

chapters, and over 320 indexed publications to date. He has been a leading member of recent major Lancet series on Child Survival (2003), Newborn Survival (2005), Undernutrition (2008), Primary Care (2008) and the forthcoming series on Stillbirths (2010). He has won several awards, including the *Tamgha-i-Imtiaz* (Medal of Excellence) by the President of Pakistan for contributions towards education and research (2000), the President of Pakistan Gold Medal for contributions to Child Health in Pakistan (2004) and the Outstanding Paediatrician of Asia award by the Asia Pacific Pediatric Association (2006). He is also the first recipient of the Aga Khan University Distinguished Faculty Award for Research (2005). Dr Bhutta was awarded the inaugural Global Child Health award (2009) by the Program for Global Pediatric Research for outstanding contributions to Global Child Health and Research and has recently been elected an honorary Fellow of the American Academy of Pediatrics for contributions to international child health. He was the Windermere Lecturer at the Annual Meeting of the Royal College of Paediatrics and Child Health UK (2010).

Dr Bhutta's research interests include newborn and child survival, maternal and child undernutrition and micronutrient deficiencies. He leads a large research group based in Pakistan with a special interest in research synthesis, scaling up evidence based interventions in community settings and health systems research
